

### **This kit contains:**

A complete kit of VBCI  
Accessories and figure tank crew for FINUL and African war  
A manual of assembly .

### **In this manual of assemblage you will find:**

- The manual step by step. Each picture represents a step and the parts required.
- A complete nomenclature for identification of all pieces.
- Painting indication
- And brief historic

### **Useful Advises:**

This kit is not recommended for children under 10 years. Keep out of reach of children. They should not be allowed to ingest small pieces or manipulate the plastic bags in any way.  
It's recommended to use the cyanoacrylate glue and to degrease parts before gluing.

### **Historic:**

The VBCI is an Armoured vehicle for infantry combat, designed by Nexter Systems and Renault Trucks Defense, to replace the AMX-10P.

It's used for troop transport, protection supports for the infantry combat. It can carry 8 soldiers, 1 driver, 1 vehicle commander / gunner and 1 chief tactic.

It is equipped with a turret "Dragar" including a laser rangefinder, a thermal camera and a 25mm cannon. On the sides of the turret, a 7.62mm machine gun and grenade launchers are installed.

It entered service in 2008 in the French army and will be deployed in Afghanistan (2010) and Mali (2013).
