

This kit contains:

- A complete kit of M-325 Nun-Nun in resin (IDF or SLA version).
- A figurine in resin.
- A manual of assembly in two sheets first side / reverse.

In this leaflet you will find:

- First: the manual step by step. Each thumbnail represents a step and the parts needed for each step are indicated on it. (For part numbers refer to the nomenclature of the second sheet).
- On the second sheet, you will find the nomenclature to be placed next to the sheet assembly to refer to each issue.
- As a historical text.

Useful Advises:

This kit is not recommended for children under 10 years. Keep out of reach of children. They should not be allowed to ingest small pieces or manipulate the plastic bags in any way.
It is recommended to use the glue cyanoacrylate.
It is advisable to place the roll bar in a flame (a very short time, just long enough to soften the resin without burning) to bend the hoops without breaking them.

Historic:

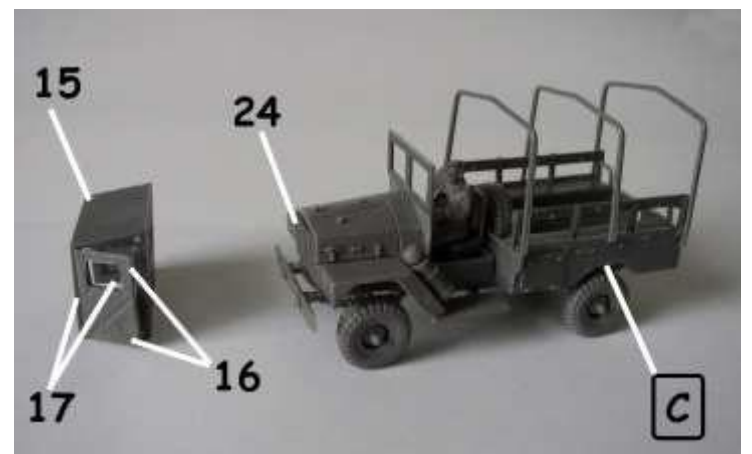

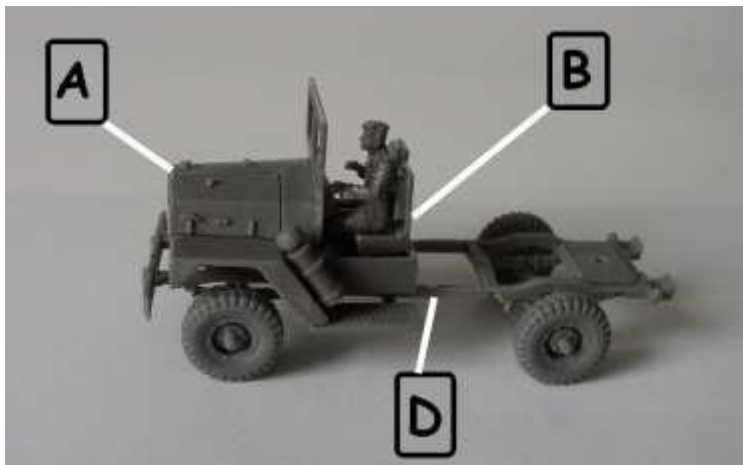

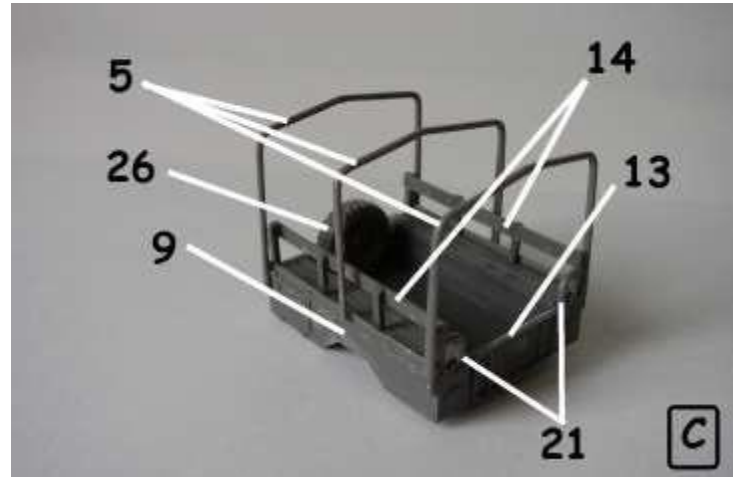

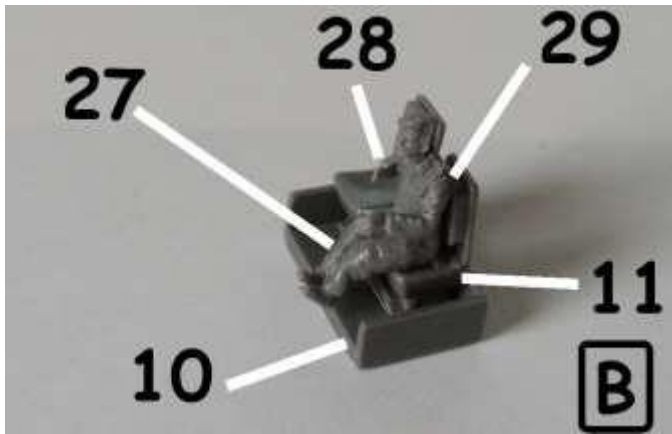

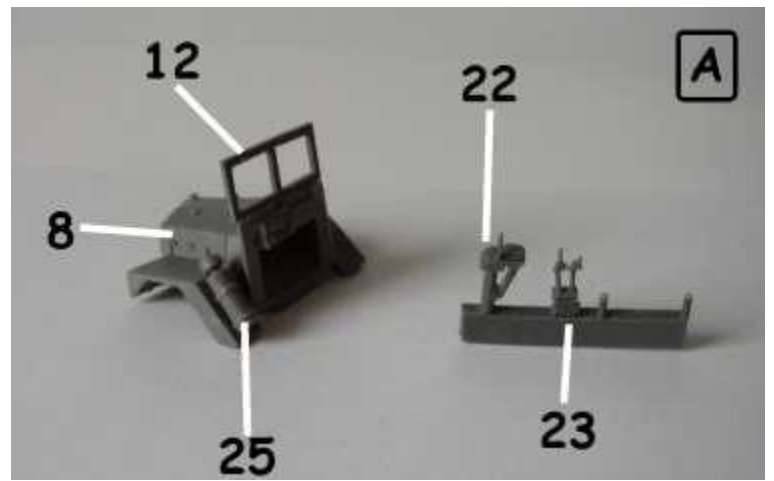

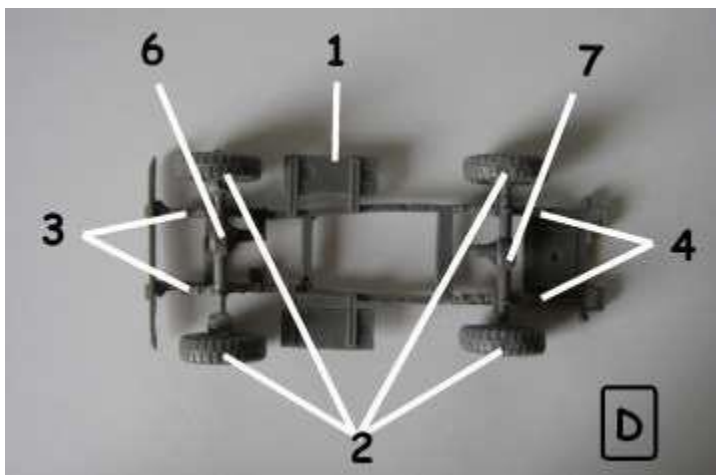

The M-325 Israeli design was manufactured in 1971, for the first time by the Israeli firm Automotive Industries Ltd. This vehicle exists in many different aspects, such as version « Cargo A » shown here. This version is used for transporting cargo or personnel. This vehicle can have a tarp fabric on the part driver and 3 roll bars in the back which can also be covered with fabric.

Besides, the family of M-325 will be nicknamed “Nun Nun” by the Israeli who is translated by «Carrier of weapons ”.

This vehicle is used in various countries as Lebanon, Israel, Peru and also within Lebanese militias such as the Lebanese Strengths (FL) or the Army of the Lebanon the South (SLA) or still captured by Hezbollah.
