### **Useful Advises:**

This kit is not recommended for children under 10 years. Keep out of reach of children. They should not be allowed to ingest small pieces or manipulate the plastic bags in any way. It is recommended to use the cyanoacrylate glue and to degrease parts before gluing.

### **Historic:**

The Namera of Israeli design is based on a Merkava chassis.

Its name comes from a contraction formed by "NAGmash" and "MERA of MerkavA".

Apparently, it looks like the troop carrier Namer (Model Miniature has released this version, MM-R119), but the difference comes from the whole rear end which is added a crane.

The Namera is a recovery tank with the possibility of being able to transport soldiers as the Namer.
