

This kit contains:

- A complete kit NAER PIKUD
- A figurine in resin.
- A manual of assembly.

In this manual of assembly you will find:

- The manual step by step. Each picture represents a step and the parts required.
- A complete nomenclature for identification of all pieces.
- And brief historic

Useful Advises:

This kit is not recommended for children under 10 years. Keep out of reach of children. They should not be allowed to ingest small pieces or manipulate the plastic bags in any way.

It is recommended to use the cyanoacrylate glue and to degrease parts before gluing.

Historic:

The Namer first generation is an APC that can carry 8 soldiers and 3 crew members. It is only Israeli design. It is based on a Merkava I and this is the first transformation made on the basis of Merkava, then follow the Namer, the Namer AIFV ...

It is equipped with a 7.62mm machine gun designed by the Israeli company Rafael, and a ram at the front, thereby breaking the walls. (MM-R219).

Several improved versions of the Namer will be used during the Gaza war starting in October 2023. These versions are based on a Merkava IV chassis. Here, Model-Miniature presents the command and communication version named PIKUD (MM-R248).

- Open hatches
- tank crew included
- master in 3D
- easy kit to build
- antenna included
