

### **This kit contains:**

- A complete kit of AMX-13 with 75mm gun in resin.
- A figurine in resin.
- A manual of assembly in two sheets first side / reverse.

### **In this manual of assemblage you will find:**

- On the first sheet: the manual step by step. Each picture represents a step and parts required for each step are indicated at the top left of each picture (part number relating to the nomenclature of second sheet).
  - On the second sheet: you will find the nomenclature that is to be placed next to the sheet for assembly in refer to each number.
- So a historical text

### **Useful Advises:**

This kit is not recommended for children under 10 years. Keep out of reach of children. They should not be allowed to ingest small pieces or manipulate the plastic bags in any way. It is recommended to use the glue cyanoacrylate.

### **Historic:**

The AMX-13 light tank is a French design at Issy-les-Moulineaux in 1946. The name "13" corresponds to his weight of 13 tons. Its crew is of three men.

It entered service in 1953 in the French military. It exists in numerous versions as to the 75mm gun (Model Miniature version presented in this kit), with the 90mm gun from the year 1964 or the 105 mm gun in the 1970s.

Since 1987 production The AMX-13 is stopped, however, you can still find replacement parts in the French company Nexter (successor of Giat Industries).

It will be used by many countries such as Israel, Lebanon, Argentina, Indonesia, Ivory Coast, Peru

...

He participated in many conflicts as the Suez War (1956) or the 6 Day War (1967).

### **Some examples of camouflage possible for this kit:**

	<b>Peinture Tamiya</b>
<b>IDF</b>	Three doses of XF-51 for one dose de XF-57
